

FuturePay Announces Mobile App for Android Allowing More Customers to Manage Their Tab On The Go

SALT LAKE CITY, UT November 4, 2014 – FuturePay, the online payment option that lets shoppers buy now and pay later with no credit card required, today announced the release of its new, free mobile app for Android devices. The FuturePay Mobile App allows users to manage their FuturePay account on their Android phone at anytime from virtually anywhere.

With the FuturePay Mobile App, users can:

- Quickly check their account balance
- Easily make and schedule payments in seconds
- View their transaction history
- Monitor all account activity

“Today’s online shopper wants convenience and security, which is exactly what the FuturePay Mobile App delivers,” said Bobbi Leach, CEO of FuturePay. “Making the app available for both Android and iOS provides more FuturePay customers the flexibility to manage their FuturePay tabs from anywhere and at anytime.”

The FuturePay Mobile App for Android is available for free in the Google Play Store. Shoppers can easily apply for a FuturePay tab from the app or at www.futurepay.com. You can download the FuturePay Mobile App for Android [here](#).

About FuturePay

FuturePay is a payment option that enables consumers to shop online without a credit card. Shoppers simply put purchases on a FuturePay tab, making it easy to buy now and pay later. Instead of entering multiple passwords, credit card information and many fields, FuturePay only requires customers to enter their username and password to complete a purchase, greatly streamlining the checkout experience.
