

## **FuturePay Integrates with OpenCart, Providing New Payment Method for Thousands of Online Retailers**

**SALT LAKE CITY, UT**, August 29, 2013 – FuturePay, a payment option that lets shoppers buy now and pay later, with no credit card required, today announced that it is now integrated with OpenCart, a leading open source eCommerce platform. FuturePay is now seamlessly integrated with OpenCart, allowing thousands of ecommerce merchants to instantly offer the FuturePay payment option to their customers.

FuturePay provides shoppers with a new payment option that is secure and convenient. Instead of entering multiple fields and credit card information, FuturePay shoppers can checkout in one step, putting purchases on their FuturePay Tab with just their username and password.

“With over 100,000 merchants and counting, OpenCart is a fantastic partner and we are thrilled to provide FuturePay as a payment option to online stores using their platform,” said Bobbi Leach, CEO FuturePay. “With FuturePay, merchants can offer their customers the convenience of one-step checkout with no credit card required.”

OpenCart merchants can visit [www.futurepay.com](http://www.futurepay.com) to learn more about how FuturePay can help them drive incremental sales from their existing storefront.

### **About FuturePay**

FuturePay is a payment option that enables consumers to shop online without a credit card. Shoppers simply put purchases on a FuturePay tab, making it easy to buy now and pay later. Instead of entering many passwords, credit card information and multiple fields, FuturePay only requires customers to enter their username and password to complete a purchase, streamlining the checkout experience greatly.
