

FuturePay Announces Extension for Spree Commerce, Providing New Payment Method for Over 45,000 Online Retailers Using Spree Commerce

SALT LAKE CITY, UT August 19, 2014 - FuturePay, a payment option that lets shoppers buy now and pay later, is now available for Spree Commerce, one of the most popular eCommerce platforms in the world. As part of the partnership, the FuturePay extension can now be easily added to Spree Commerce online shopping carts, allowing thousands of eCommerce merchants to instantly offer FuturePay as a payment option to their customers.

FuturePay provides shoppers with a new payment option that is secure and convenient, with no credit card required. Instead of entering multiple fields and credit card information, FuturePay shoppers can checkout in one step, putting purchases on their FuturePay Tab with just their username and password.

“With more than 45,000 online stores using their platform, Spree Commerce is an exceptional partner. We are thrilled to offer Spree Commerce merchants another payment option for their cart,” said Bobbi Leach, CEO FuturePay. “Now, with FuturePay, it’s easy for Spree Commerce merchants to provide their customers with the convenience and security of shopping without a credit card.”

“We are very excited about the FuturePay integration,” said Spree Commerce CEO Sean Schofield. “Their innovative and secure payment option is a perfect fit for the growing list of Spree Commerce stores.”

Spree Commerce merchants can visit www.futurepay.com to learn more about how FuturePay can help attract new customers to their existing storefront.

About FuturePay

FuturePay is a payment option that enables consumers to shop online without a credit card. Shoppers simply put purchases on a FuturePay tab, making it easy to buy now and pay later. Instead of entering multiple passwords, credit card information and many fields, FuturePay only requires customers to enter their username and password to complete a purchase, greatly streamlining the checkout experience.

About Spree Commerce

Spree Commerce began as an open source eCommerce platform in 2008. The modular platform allows for easy customizations and upgrades so developers and storeowners can configure Spree for their specific needs. Spree is now one of the top open source projects in the world.

Spree is also the creator of [Wombat](https://wombat.co), the first Scaling as a Service platform. Wombat works with any storefront, whether it's Shopify, Magento or Spree. It integrates mission critical services with your store in just minutes; not weeks or months. With Wombat, you'll never worry about losing an order, integrating your ERP, POS systems, drop shipping or fulfillment. Connect any store to any service, no custom code required. To learn more, visit <https://wombat.co> and <http://spreecommerce.com>.
