

FuturePay Launches New Mobile App Designed for iOS7

Responding to Customer Demand, FuturePay Launches New App that lets shoppers manage their FuturePay account on the go

SALT LAKE CITY, UT – May 29, 2014 - FuturePay, the online payment option that lets shoppers buy now and pay later, with no credit card required, today announced the release of its new, free companion iOS app. The FuturePay Mobile App allows users to manage their FuturePay account from their iPhone, iPad or iPod Touch at anytime from virtually anywhere.

With the FuturePay Mobile App, users can:

- Quickly check their account balance
- Easily make and schedule payments in seconds
- View their transaction history
- Monitor all account activity

“Today’s online shopper wants to shop quickly and easily from any device and FuturePay enables them to do so,” said FuturePay CEO Bobbi Leach. “Now we’ve extended that convenience for our members to also manage their FuturePay account from anywhere and at anytime.”

FuturePay for iOS is available for free on the App Store on iTunes. Shoppers can easily apply for a FuturePay membership account from the app or at futurepay.com. An Android version of the application is currently in development and will be released later in the year.

About FuturePay

FuturePay is a payment option that enables consumers to shop online without a credit card. Shoppers simply put purchases on a FuturePay tab, making it easy to buy now and pay later. Instead of entering many passwords, credit card information and completing multiple fields, FuturePay only requires customers to enter their username and password to complete a purchase, streamlining the checkout experience greatly.
